## Hour

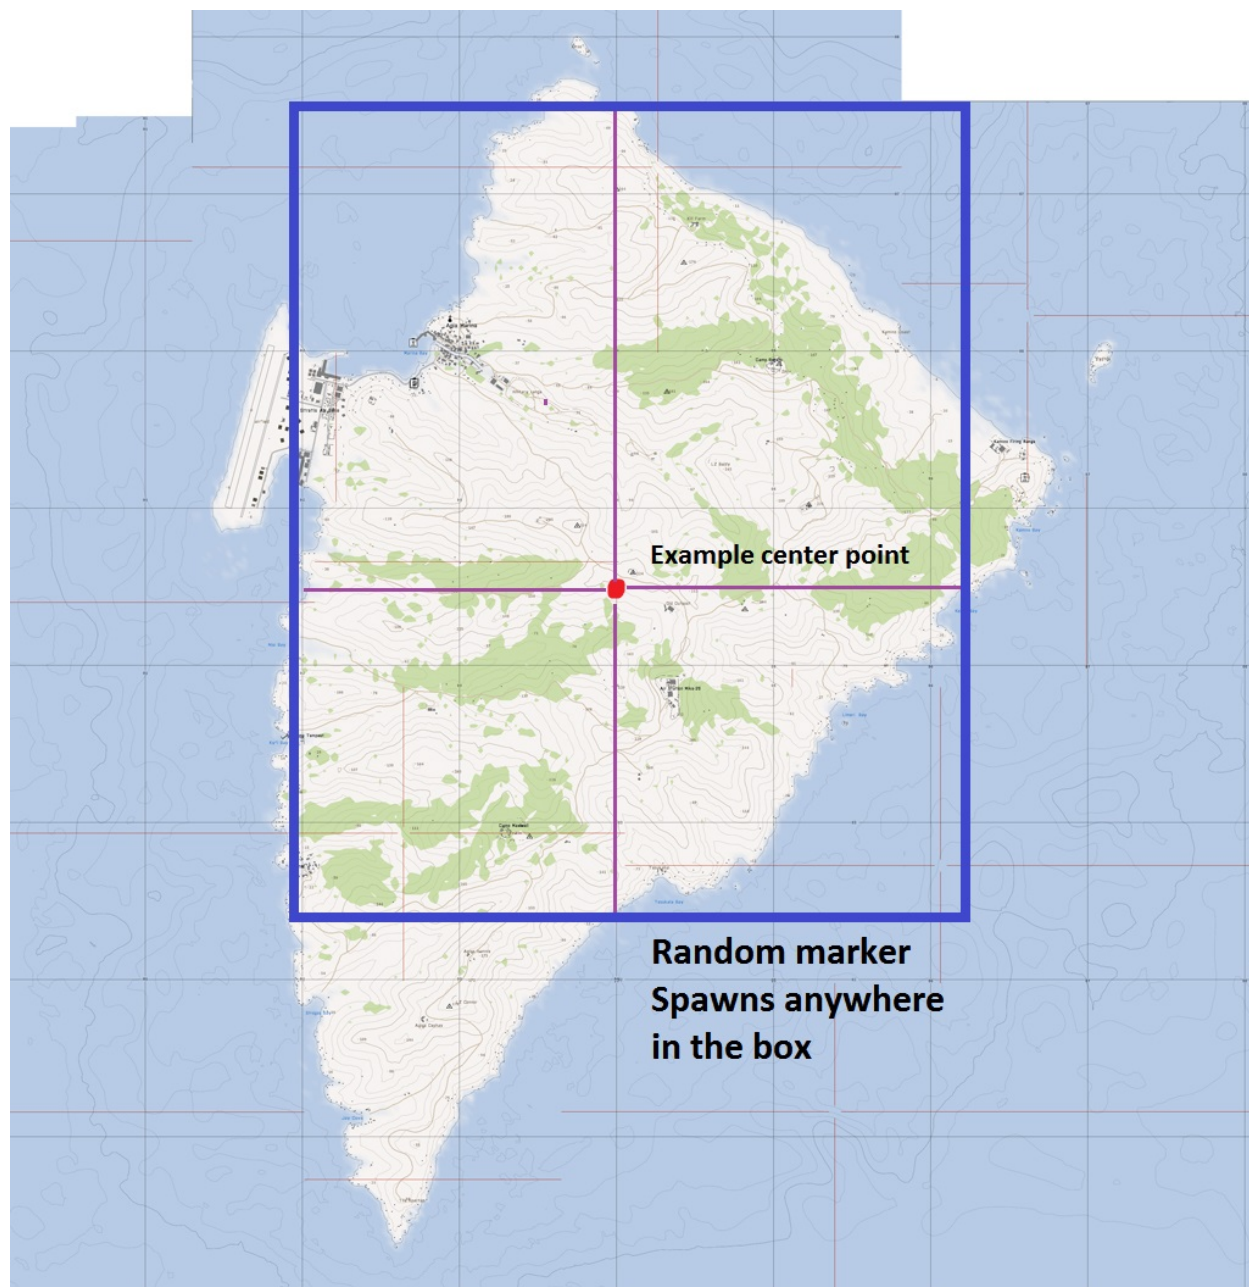

- Default: 5 AM
- Sets time of day. Uses default BIS time day hour parameter.

## Weather

- Default: 25
- Sets weather (overcast and rain).
- The higher the value, the poorer the weather. 0 would be clear sky.

## Spawn Type

- Default:
  - Random Creator Defined Buildings (Stratis)
  - Random Locations: [City Capital, City, Village, Local] (Altis)
- Choose a method to pick random spawn locations for players.
  - Random Marker-Based Nearest Building
    - A random marker is generated anywhere on the map (including water)
    - The position of the nearest building to that marker will be selected, and then players will be spawned within that building.
    - This method tends to favor buildings in the coast.
  - Random Marker-Based Nearest Building (Avoid Water)
    - A random marker is generated on the map based on a boxed location
      - The box is based on the center point of the island to where the width and height meets the water.
        - See the picture below for an example
    - The position of the nearest building to that marker will be selected, and then players will be spawned within that building.

- Random Locations: City Capital
- Random Locations: [City Capital, City]
- Random Locations: [City Capital, City, Village]
- Random Locations: [City Capital, City, Village, Local]
- Random Locations: Marine
  - Random Locations spawn randomly picks a random Location object in Arma 3 to spawn the player.
    - See nearestLocations for more details  
<https://community.bistudio.com/wiki/nearestLocations>
  - Based on the Spawn Range, a random marker will be spawned in a random area away from the randomly selected location.
  - The nearest building to that marker will be selected, then players will be spawned within that building
  - Random Locations: Marine will place players on shoreline area
    - See Location for more details about location objects  
<https://community.bistudio.com/wiki/Location>
- Random Creator Defined Buildings
  - Randomly spawn players in an area that was randomly defined by the mission maker
- LOCATION ITSELF
  - Spawn players directly on the handpicked location itself if available.
    - The location itself is the name of the site.

## Spawn Range

- Default: 300 meters
- Parameters: 0-2500 meters
  - Increment of 100 meters
- This parameter applies to the Spawn Type parameters.
  - Spawn range affects Spawn Type if Spawn Type is a Random Location type.
- After a random location is chosen for spawn, a random marker will be placed at a random area within the specified spawn range.
  - The position of the nearest building to that marker will be selected and players will be spawned into that building.

## Amount of Enemies

- Default: 60
- Parameters: 4-120
  - Increments of 4
- Sets the amount of enemies that will be attacking you.

## Enemy's Skill
